SUMMARY

Information Technology student pursuing a B.S. in Information Technology with a concentration in Cybersecurity. Hands-on experience with Active Directory, ServiceNow, VMware, Windows Server, and IT support simulations. Seeking an entry-level IT support or help desk internship to apply troubleshooting, customer service, and technical support skills.

EDUCATION

Georgia Southern University Expected Graduation May 2029
Bachelor of Science Information Technology (BSIT), Concentration in Cybersecurity GPA: 3.47
Relevant Coursework
Introduction to Information Technology, Introduction to Cybersecurity, Introduction to Web Design

EXPERIENCE

Courtesy Clerk / Bagger 03/2024 – Present
Kroger McDonough, GA

- Assisted customers in a fast-paced retail environment while maintaining strong customer service
- Resolved customer concerns and provided professional support through effective communication and problem-solving
- Collaborated with team members to complete tasks efficiently and meet operational deadlines
- Strengthened communication and teamwork skills through daily customer-facing interactions

PROJECTS

Windows Active Directory Lab | *Windows Server, VMware* May 2026

- Configured and managed Active Directory Domain Services (AD DS) within a VMware virtual machine environment
- Created Organizational Units (OUs), user accounts, security groups, and distribution groups to simulate enterprise user management
- Performed password resets, account unlocks, and user account administration tasks within Active Directory Users and Computers (ADUC)
- Practiced troubleshooting user authentication and access issues in a Windows Server domain environment

ServiceNow Administration Practice | *ServiceNow Developer Instance* April 2026

- Created and managed tickets within a ServiceNow developer environment to strengthen understanding of IT service management workflows
- Practiced ticket creation, categorization, status updates, and documentation within the ServiceNow platform
- Learned foundational incident management and ticket lifecycle management concepts used in help desk operations

IT Help Desk Simulation | *ServiceDesk Simulator* April 2026

- Resolved simulated Level 1 IT support scenarios involving password resets, login issues, email support, and Wi-Fi connectivity troubleshooting
- Practiced diagnosing common Windows and networking issues while following structured troubleshooting processes
- Strengthened customer service and communication skills by explaining technical issues clearly in simulated support interactions

TECHNICAL SKILLS

Operating Systems: Windows 10/11, Windows Server
Tools & Platforms: ServiceNow, Active Directory, VMware, GitHub, VS Code
Languages: HTML, CSS, JavaScript
IT Support Skills: Password Resets, Account Unlocks, User Account Management, Ticketing Systems, Troubleshooting, Basic Networking
Areas of Knowledge: Cybersecurity Fundamentals, Networking Basics, IT Support, Windows Administration
